January 22, 1990

Dr. Harmon C. McAllister
The Council for Tobacco Research-U.S.A., Inc.
900 Third Avenue
New York, New York 10022

Dear Dr. McAllister:

I am writing to notify you of the program for the FASEB Summer Research Conference on Folate, B_{12} and One Carbon Metabolism and to solicit support from The Council for Tobacco Research for the meeting. The meeting will be held July 9-August 3, 1990 in Saxton's River, Vermont. A copy of the program is enclosed. As in the past, we will stress both basic and clinical studies of folates and antifolates and recent studies of potential chemotherapeutic target enzymes. We would be glad to receive applications from scientists at The Council for Tobacco Research with interests in this area of research. If you could contact me with their names, I will have the FASEB Office send them application forms directly once they are printed.

As you know, our ability to reimburse speakers for their expenses and to pay travel for younger participiants depends on raising funds for this purpose. In this lean year, we are anticipating rather minimal support from NIH and NSF. We hope that The Council for Tobacco Research will be willing to contribute a few thousand dollars to support the meeting, as they have in the past. Any such support would be acknowledged in the program and at the meeting. Checks should be made out to FASEB, and mailed to Ms. Marilyn Marsh, Director of FASEB Meetings, 9650 Rockville Pike, Bethesda, MD 20014 with a cover letter designating the funds for the Conference on Folate, B_{12} and One Carbon Metabolism.

We are looking forward to an exciting meeting, with a diverse group of participants from the pharmaceutical industry, universities and medical centers. Thank you in advance for your help.

Most sincerely yours,

Rowena Matthews

Rowena G. Matthews
Professor of Biological Chemistry and
Meeting Co-Chair
